

“Cosmic Accident or Intentionally Created?”  
Questions for God

*“Cosmic Accident or Intentionally Created”*

*Statistics point away from evolution*

*Species in our world are retreating not advancing*

*Creation is too complex to be coincidental*

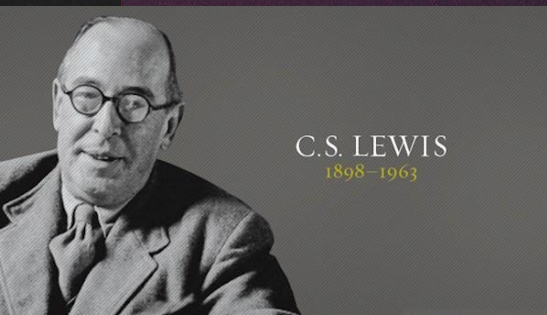

*Evolution has a negative effect on ethics*

*“If random molecular rearrangements led to the first cellular life, which, purely by chance and time, eventually became people, then there is no basis for determining value for anything aside from the shifting sands of human opinion.”*

C.S. LEWIS  
1898–1963

*“If the solar system was brought about by accidental collision, then the appearance of organic life on this planet was also an accident, and the whole evolution of Man was an accident too. If so, then all our present thoughts are mere accidents—the accidental by-product of the movement of atoms. . . . [So if the thoughts of materialists] are merely accidental by-products, why should we believe them to be true? I see no reason for believing that one accident should be able to give a correct account of all the other accidents.”*

*Oxford professor C. S. Lewis*
